

This is a dangerous ledge & bears W  $\frac{1}{2}$  N from the SW end of Richmonds Island, distance two & a half miles, and lies ENE  $\frac{1}{4}$  E from the east point of Prouts neck, one & a fourth miles. The ledge shows itself at half tide. The passage between this ledge & Prouts Neck is dangerous, as the point of rock from the north eastern part of the neck extends off nearly a half mile. Avoid if possible, getting into this bay anywhere between Prouts Neck & the entrance to Spurwink.
